**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Competition improves products and services. Creating false monopolies hurts the customer and stifles innovation. Giving customers a choice in high speed internet allows the industry to set competitive pricing. Internet access is an incredibly important utility in our current society, so we should be allowed a choice in providers and services to suit all of our needs.
